

Medium: Long readable line lengths detected

2 text blocks exceed readable line-length thresholds.
Constrain paragraph width to roughly 50-75 characters per line and split dense copy blocks.

Medium: XML sitemap was not found

HTTP Error 404: Not Found
Expose an XML sitemap and reference it from robots.txt.

Medium: Content Security Policy is missing

No Content-Security-Policy header was captured.
Add a CSP to reduce script injection and framing risk.

Medium: HSTS header is missing

No Strict-Transport-Security header was captured.
Add HSTS after HTTPS is stable across the site.

Medium: Likely hero/LCP image lacks high fetch priority

First image is "/_astro/qualityfolio-logo.CiYk51BF.png" without fetchpriority="high".
Add fetchpriority="high" to the LCP image or preload the correct responsive candidate.

Medium: Most raster images use legacy formats

1 of 1 images appear to use JPG, PNG, GIF, or JPEG.
Use AVIF/WebP where quality allows, with fallbacks for critical images.

Medium: Missing canonical URL

No canonical link was extracted.
Add a self-referencing canonical URL for this landing page.

Medium: Main landmark is missing

No <main> or role="main" landmark was extracted.
Wrap primary page content in one main landmark.

Medium: Card body text likely fails WCAG AA contrast requirements, creating readability friction for users with visual impairments.

Body text in the Evidence-Grade Traceability, SQL-First Analysis, and AI-Native Workflows cards appears in a light gray color on a white background and is noticeably smaller than the card headings.
Darken card body text to at least #595959 or verify a 4.5:1 contrast ratio against the white background.

Low: X-Content-Type-Options is missing

No X-Content-Type-Options header was captured.

Add X-Content-Type-Options: nosniff.

Low: Cache-Control header is missing

No Cache-Control header was captured for the landing page response.

Set an explicit cache policy for HTML and long-lived immutable caching for fingerprinted static assets.

Low: No cache validators were captured

Neither ETag nor Last-Modified was present.

Add ETag or Last-Modified so repeat visits can revalidate efficiently.

Low: No JSON-LD structured data

No structured data types were extracted.

Add Organization, WebSite, SoftwareApplication, Product, or FAQ schema when relevant.
